NEW PLA Midline Blades

The Thompson MIS Spine Frame is now available for use with midline or paraspinous muscle-splitting approaches to the posterior lumbar spine. The PLA Midline Blade Kit offers the ability to add flat blades to the MIS Spine Frame. This blade kit is ideal for all single-level midline posterior lumbar procedures such as laminectomies, fusions, microdiscectomies, or insertion of pedicle screws.

Simply add two midline blades to the MIS Spine Frame for Uncompromised Exposure.
