NEW Thompson Retractor Features

Faster, Lighter, More Efficient

Thompson’s Elite Rail Clamp, unilateral crossbar, and retractor handles have all been updated for improved performance and ease of use.

Thompson is dedicated to providing the most forward thinking, proven, and high quality features.

Elite III Rail Clamps

Sterile, quick tightening knob locks rail clamp to bed securely in half the time, when compared with the Elite II Rail Clamp, while lightweight base design reduces overall weight by 1 pound.

Quick Angle Handles

Versatile, low-profile positioning of blades helps maintain a low-profile operating field and achieve better exposure. Blades can be toed in or out 45° with a T-Handle.

Improved Cam Joints

Now easier to lock and unlock, Cam II Clip-on Handles have been upgraded to include comfort “pinch” joints for easier removal from the frame.

NOTICE:

Elite II Rail Clamps and Angling Handles still available, but may require a longer lead time. Please call for more information.

PRODUCT MEASUREMENT GUIDE

ELITE RAIL CLAMPS
Measured from bottom of the bed rail to the highest point joint can reach. (NOTE: Elite III is measured with jaw in the FULLY closed position.)

RAIL EXTENDERS
Length of rail space provided, from end to end.

UNILATERAL CROSSBARS + ANGLED ARMS
Total length equals the sum of both sides. (A + B)

BILATERAL CROSSBARS
Length of usable rod on each section (A x B x C).

LOWER ABDOMINAL BARS
All measure 17" across, between joints. Lateral arm sections are measured separately.

Service and Warranty

PRODUCT WARRANTY: Thompson Surgical Instruments, Inc. warrants that all instruments are free from defects in material or workmanship for 10 years*. This warranty is void if failure of the product has resulted from normal wear and tear from instrument use, accident, abuse, misapplication, negligence, or if the product has been damaged, altered or repaired outside of Thompson Surgical’s facility. Warranty void if purchased from a non-authorized supplier/distributor.

* Malleable and Cobra blades carry a two (2) year guarantee against defects in both material and workmanship. Please replace Cobra blades after two (2) years of surgical use or 200 uses if this occurs first to avoid possible fracturing or cracking of Cobra blade tips.

* Hip Tethers carry a one (1) year guarantee against defects in both material and workmanship. Please replace Hip Tethers after 10 reprocessing cycles to avoid possible breakage.

* Fiber optic Xenon lighting products carry a 60 day guarantee. Fiber optic LED lighting products carry a one year guarantee. Fibers are not warranted against breakage. Please be cautious when handling and avoid stepping on or kicking the fiber optic cable to prevent damage.

* Blade finishes do not carry a warranty.

* Please note that aluminum blades are sensitive to high and low pH levels. Please follow cleaning and sterilization instructions exactly. (See Thompson Retractor IFU.) Failure to do so may cause aluminum blade staining, pitting, or other corrosion and will void blade warranty.
